Hello there...

Events that belong here.

Eventana Events is an Emirati woman-led event design and production company, established in 2021 and based in Dubai.

We plan, design and deliver events across the UAE — for private companies, government organisations, schools and private clients. Over the past five years we have built our reputation on a simple standard: the event opens on time, looks exactly as approved, and reflects the people it was made for.

We are not a booking agency. We design the concept, produce the setup, own the equipment, train the team, and run the event on the day. One company, from first brief to final handover.

ABOUT US

Built in the UAE, for the UAE.

Eventana was founded in 2021 by an Emirati businesswoman who saw the same gap at event after event: productions that were technically competent but culturally hollow — designs that could have been dropped into any city in the world.

Five years on, Eventana is a full-service production house with its own warehouse, its own equipment and its own trained crews, serving clients in every emirate.

ESTABLISHED	2021 · Dubai, United Arab Emirates
OWNERSHIP	Emirati woman-led
COVERAGE	All seven emirates and Al Ain
SECTORS	Corporate · Government · Education · Community · Private
MODEL	In-house design, in-house equipment, in-house crew

OUR ADVANTAGE

We understand where we are.

Most event companies in the UAE deliver a global template. We deliver an event that belongs to this country.

Being Emirati-led is not a line on our licence — it is how we read a brief. We know what a majlis-style welcome signals to senior guests. We know how to design for Ramadan and Eid without reducing them to decoration. We know which gestures read as generous here, and which read as careless. And we know how to bring all of it into a design that feels current, elegant and premium — not traditional for the sake of it.

Cultural fluency, by default

Protocol, seating, hosting order, timing around prayer, the tone of a welcome. Our clients do not have to explain these things to us, or check them afterwards.

Heritage, made modern

Emirati motifs, palettes and hospitality traditions interpreted through a clean, contemporary design language.

Fully bilingual

Arabic and English across our team, our design work and our client communication — with Arabic treated as a first language, not a translation.

The right instinct for the room

Government protocol, a corporate client's brand governance and a family celebration each demand a different register. We read the room before we design for it.

FOR ORGANISATIONS

What we deliver for organisations.

● Corporate & employee family days

Full-day programmes for staff and their families — activity zones, attended food stations, entertainment and branded theming across the venue.

● Government & national occasions

National Day, Union Day, Eid and Ramadan programmes, ceremonies and community celebrations, delivered with the protocol and cultural accuracy these occasions require.

● Corporate celebrations & milestones

Anniversaries, achievement ceremonies, long-service recognition, branch openings and staff appreciation events.

● Brand activations & public engagement

Interactive installations, attended attractions and customer-facing experiences for retail, mall and community environments.

● Children's & family programming

Supervised entertainment, structured creative workshops and safe active play — the specialism most corporate providers cannot deliver in-house.

● Conferences, seminars & launches

Concept, staging, theming, styling and full on-site coordination.

● Branded production & giveaways

Backdrops, signage, printed personalisation and custom giveaways produced to your brand guidelines — not a stock theme.

Trusted by private and government organisations across the UAE.

Since 2021 we have delivered events for private companies and government organisations across the Emirates, alongside schools, community bodies and private clients.

That mix matters. A government occasion demands protocol and cultural precision. A corporate client demands brand governance, security clearance and a delivery record that survives scrutiny. A family celebration demands warmth. Each is a different discipline — and we have built the company to hold all three.

Arrive early, always

Institutional venues have access windows, security procedures and facilities teams. We plan around them rather than discover them.

Approve before producing

Nothing is built, printed or installed before it is signed off. At this level, a surprise is a failure.

Design to the brief, not to a template

Corporate work is produced to the client's brand guidelines. Government occasions are designed to the standard the occasion deserves.

Leave nothing behind

Full dismantle, full site clearance, photographic handover. Facilities teams remember who does this properly.

References available on request.

EVERYTHING IN-HOUSE

Our full portfolio.

Design & theming

Custom backdrops in three scales, balloon installations in your brand colours, character cut-outs, welcome signage, cake and display staging, fully styled themed seating.

Food & beverage stations

Popcorn, cotton candy, slush, corn, ice cream, hot dogs, mini pancakes, nachos, burger sliders, chocolate fountain and hot chocolate. Every station staffed by an Eventana attendant — guests never operate the equipment.

Inflatables & active play

Bouncy castles, bubble house, ball-pool slide, water slides, and a 12×6 m slippery football pitch. Supervised, capacity-limited, safely anchored.

Carnival games

Attended skill-and-prize games run by our crew, with prizes included.

Entertainment

Acrobatic performers, stilt walkers, balloon artists, face painters and costumed mascot characters.

Creative workshops

Slime, cupcake and cookie decorating, canvas and pottery painting, T-shirt and tote painting, bracelet and doll making. All materials and assistants included.

Special effects

Foam, bubble and snow machines, deployed to suit the venue.

Branded giveaways

Custom-printed T-shirts, hats, banners, wristbands and bespoke artwork, produced to your brand.

Digital design

Themed digital invitations, animated video invitations, event artwork and custom illustration.

BRIEF TO HANDOVER

How we work.

01 Brief

We meet, and we listen. Occasion, audience, venue, attendance, protocol requirements, brand guidelines, budget.

02 Design

We return a full visual concept with the recommended service mix, layout and a written scope. Nothing is produced before you approve it.

03 Plan

Date secured, equipment reserved against it, delivery and setup windows agreed with your venue and facilities team.

04 Produce

Custom theming, branded items and printed personalisation enter production with lead time built in.

05 Deliver

Our crew install ahead of guest arrival. Attendants run the stations, entertainers run their programmes, and one supervisor holds the schedule as your single point of contact.

06 Handover

We dismantle, clear the site and return the venue as we found it — followed by a photographic handover.

WHY ORGANISATIONS STAY

Six reasons clients stay with us.

We understand the culture

Emirati-led, bilingual, and fluent in the traditions and expectations of the UAE — brought into every event in a modern, creative way.

We own what we promise

Our own warehouse, our own equipment, our own trained crew. Nothing critical is sub-contracted to a company we cannot vouch for.

We work to institutional standards

Government protocol, corporate brand governance, security and access requirements — met as a matter of routine.

One company, one contact

A twelve-element event is one scope, one quotation, one account manager and one crew — not six vendors arriving at six different times.

We hold the schedule

Our own booking and operations system tracks equipment availability in real time, so a date is never double-committed and a setup time is a commitment, not an estimate.

Everything in writing

Scope, inclusions, timings and costs are fixed before the event. Nothing is renegotiated on the day.

The standards behind the event.

Children are a primary audience at many of our events, and our procedures reflect that.

- Equipment inspected before every deployment, with anchoring appropriate to the surface and conditions.
- Capacity limits enforced per ride, with an Eventana supervisor present at active-play equipment throughout.
- Food stations operated exclusively by trained Eventana attendants — never by guests or children.
- Child-safe consumables and age-appropriate materials across all activities.
- Uniformed, briefed and identifiable crew on site for the full duration of the event.
- Venue protection and complete site clearance as standard, not as an extra.
- Written scope, confirmed timings and a photographic handover on completion.

Company documentation available on request.

SELECTED WORK

A look at what we build.

Corporate family day

Wide shot of a full setup with guests. Caption with attendance, e.g. “400 guests”.

Government occasion

National Day, Union Day or a ceremony. Protocol setting, no faces needing clearance.

Attended food stations

Crew in uniform operating a station — shows staffing, not just equipment.

Theming & backdrop

Your strongest backdrop build. Brand-matched work is better here than a character theme.

Replace these four frames with photographs before issuing this profile. Caption each with the occasion and scale rather than the theme name.
